PROFESSIONAL SUMMARY

Hands-on welder with industrial work experience at PT Toyo Kanetsu Indonesia and formal welding training through PT Global Sarana Internusa. Skilled in FCAW GS 3G/4G, SMAW GS 3G/4G, and SMAW 6G training foundations. Known for discipline, attention to detail, PPE awareness, SOP compliance, teamwork, and willingness to follow supervisor direction in workshop or project environments.

CORE WELDING QUALIFICATIONS

FCAW GS 3G/4G	SMAW GS 3G/4G	SMAW 6G
Safety Mindset	SOP Compliance	Quality Checking

WORK EXPERIENCE

Welder | PT Toyo Kanetsu Indonesia

13 May 2022 - 25 January 2023 | 26 September 2023 - 25 December 2025

Performed welding work with focus on process accuracy, workplace safety, and quality consistency. Worked in team-based environments, followed technical direction, and maintained welding output quality according to project requirements.

- Supported production continuity through discipline, work readiness, and compliance with instructions.
- Built a habit of checking welding quality before work moved to the next process stage.
- Maintained professional conduct in work areas requiring safety, accuracy, and responsibility.
- Worked with awareness of PPE, project standards, supervisor direction, and team coordination.

TRAINING & CERTIFICATION

Welding Training - SMAW GS 3G/4G

PT Global Sarana Internusa (GSI) | 07 August 2020
Formal welding training foundation for groove welding positions.

Welding Training - SMAW/FCAW GS 3G/4G

PT Global Sarana Internusa (GSI) | 19 September 2020
Training exposure to SMAW/FCAW processes for 3G and 4G positions.

Welding Training - SMAW 6G

PT Global Sarana Internusa (GSI) | 18 December 2020
Training completion for SMAW 6G welding position.

TECHNICAL & WORK SKILLS

Technical Foundation - FCAW GS 3G/4G - SMAW GS 3G/4G - SMAW 6G - Technical instruction reading	Work Execution - Attention to detail - Field problem solving - Quality consistency - SOP and brief compliance - Risk awareness	Professional Character - Communication - Teamwork - Discipline - Honesty - Accountability
---	---	--

• Work area organization • Welding output quality control	• Deadline awareness	• Coachability
---	--	--

PROFESSIONAL HIGHLIGHTS

Quality Consistency in Welding Work

Developed a routine of checking work instructions, preparing tools, maintaining area focus, and reviewing welding results before moving work forward.

SOP Compliance and Safety Mindset

Follows instructions carefully, works with caution, and prioritizes safe process execution before speed.

Readiness for Project-Based Welding Environments

Field experience demonstrates discipline, reliability, coachability, and readiness to learn project-specific procedures and welding standards.

SUPPORTING DOCUMENTS & PORTFOLIO

Employment certificates, welding training certificates, work documentation, and visual proof-of-work are available in the online portfolio:

<https://itsmeputra.my.id>

Available documentation includes PT Toyo Kanetsu Indonesia employment certificates, PT Global Sarana Internusa training certificates, field welding documentation, and team/workshop photos.

CAREER OBJECTIVE

To build a long-term career as a professional welder by contributing to safe, disciplined, and quality-focused welding work. Open to welder opportunities in fabrication, industrial projects, workshop production, construction support, or maintenance environments where technical discipline, teamwork, and reliable execution are valued.

WHY CONSIDER THIS CANDIDATE

- Trained in FCAW GS 3G/4G, SMAW GS 3G/4G, and SMAW 6G.
- Brings a disciplined field-work mindset with safety awareness and result orientation.
- Used to following technical instructions, SOPs, and supervisor direction.
- Shows organized, honest, responsible, and coachable working character.
- Has online documentation that supports welding experience, training, and work readiness.

PERSONAL INFORMATION

Birthplace / Date: Payakumbuh, 06 January 2000 Nationality: Indonesia	Current Location: Batam, Indonesia Availability: Open to welder opportunities
